EDUCATION

Politecnico di Milano Graduate School of Management

Milan

Specializing Master in Business Analytics and Data Science

Sep 2025 - present

Relevant coursework includes: Machine Learning, Deep Learning, Databases, Data Warehousing.

Bocconi University

Milan

Bachelor of Science in International Economics and Management

Sep 2021 - Sep 2024

Awarded partial merit-based tuition waiver for three consecutive years.

EXPERIENCE

Data Analyst Intern

Milan

Levi Strauss & Co.

Sep 2024 - Sep 2025

- **Project Blue:** owned and maintained dashboard tracking Levi's \$15M partnership with Beyoncé. Built end-to-end pipeline from BigQuery SQL extraction to PowerBI visual. Awarded Levi Strauss Diamond Award for excellence in internal reporting relevant to company's current affairs.
- **Franchise App:** automated franchisee orders and shipments tracking by integrating SQL data into weekly-updated Google Looker dashboard. Reduced manual workload by 5+ hours/week. Ensured logistics transparency amid major supply chain disruptions due to DC transition at European level.
- **Levi.com:** owned and maintained fully automated internal reporting tool for Levi's ~\$250M European e-commerce business. Replaced legacy Excel reports, reduced manual workload by 7+ hours/week.

Selected Fellow

San Francisco Bay Area

Silicon Valley Fellowship

Feb 2024

Fellow in a tech-focused bootcamp in Silicon Valley. Interacted with industry-leading professionals within startup and VC sectors. Beneficiary of financial aid, boasting an acceptance rate of 5%.

Administrative Intern

Pordenone

Chamber of Commerce of Pordenone - Udine

Jan 2020

Data collection and reporting on territorial SMEs through MS Excel.

PROJECTS

- **NBA Players Clustering:** Bachelor Thesis' project, analysis of historical NBA trends visualized through R and a *k-means* clustering of players according to their statistic production rather than on-court positioning. Aiming to assess ideal roster composition, adequate player compensation.
- **NBA Box-Score Query:** autonomously deployed R Shiny app with information on NBA players' box-scores since 1946-47. Implemented a text filter to quickly obtain relevant insights.

SKILLS

- **Stack:** Python (pandas, numpy, matplotlib), R (tidyverse, ggplot2, shiny), SQL, HTML, CSS, Git.
- **Tools:** GCP, BigQuery, Looker Studio, MS PowerBI, MS Excel, Dataiku, SAP.
- **Languages:** Italian (native), English (C1), Spanish (B1).

CERTIFICATIONS

Intermediate Python (DataCamp), Introduction to Statistics in Python (DataCamp), R for Data Science (LinkedIn), Career Essentials in Data Analysis (Microsoft), Complete Guide to R (LinkedIn), ICDL.

VOLUNTEERING

European Youth Parliament - Delegate

Sep 2019 - Jun 2021

Student organization simulating processes of the European Parliament through committee work and debates. Selected for the Italian national session in 2021.
